

Welch Allyn KleenSpec® Disposable Vaginal Specula and Cordless Illumination System

An advancement in women's health technology
that's nothing short of brilliant.

WelchAllyn®

Advancing Frontline Care™

Now you can have better visualization of the exam area without the hassle of cords.

The Welch Allyn KleenSpec® Cordless Illumination System features a cordless design, so you'll never have to worry about cords getting in your way or breaking again.

Plus, with 5,500° K white light-emitting diodes (LEDs) as opposed to halogen, you'll experience a superior whiter, brighter light that provides you with true tissue color during an exam.

LED VS. HALOGEN

The Welch Allyn KleenSpec® Cordless Illumination System will change the way you see your patients and easily fits right into KleenSpec® Disposable Vaginal Speculum.

Cordless and convenient, with you in mind

- No cord to get in the way, clean or break during procedures
- Continuous on time of 80 minutes
- Lithium ion battery provides a recharge time of six hours
- Automatic on/off—insert the illumination system into the vaginal speculum and it automatically illuminates, remove it and the light goes off

Superior light source, for improved patient exams

- No bulb replacement necessary for reduced cost of ownership
- 5,500° K white LED technology for a whiter, brighter light
- Truer tissue rendition and uniform spot—no dark or hot spots—for enhanced visualization of the exam area
- Produces much less heat than traditional lamps for greater comfort

790 Series Illumination System
Shown with #79910 Cordless Illuminator
with Charging Station

The 590 Series KleenSpec® Vaginal Speculum has been redesigned to better meet your needs.

New ergonomic design, to improve patient exams

- A wider handle for improved maneuverability and better balance
- The ability to better manipulate during exams
- A newly designed light pipe that provides a homogeneous spot and eliminates glare back so all of the light is projected forward
- Smooth, molded acrylic that will not pinch or bind tissue for greater patient comfort
- Stronger grip, and the yoke is more flexible than low-cost substitutes

Disposable, for your convenience

- Single-use speculum eliminates the time and expense of reprocessing metal specs
- Improves patient safety by reducing the chance of cross-contamination

#59000

#59001

#59004
